

## Training: Certified Quality Risk Management Specialist

### Are you managing risk in everything you do?

Join us for a comprehensive training course that will equip you with the knowledge and skills to effectively manage risks and improve the quality of care in the Senior Living industry.

In this program, you will learn how to minimize, monitor, and control the likelihood of unfortunate events by understanding the economics and application of resources. By focusing on the improvement of systems, you will be able to identify, assess, and prioritize risks in a coordinated effort within the Senior Living environment.

The course specifically targets the enhancement of residents' outcomes, family and resident satisfaction, client communication, and customer service. You will also gain valuable insights into loss control techniques, such as identifying and managing liability claims related to avoidable falls, wounds, and clinical errors. Additionally, you will learn how to effectively identify and manage significant changes in the LTC setting, ensuring regulatory compliance through proper assessment, care planning, implementation, monitoring, and documentation.

Don't miss this opportunity to enhance your skills and contribute to the overall improvement of care and life in the Senior Living industry.

Space is limited! **Register today** by submitting the registration form on page 2.
